## SUPERINTENDENT'S REPORT

To the School Board of Langdon:

I herewith submit my annual report for the fourteenth year as your Superintendent of Schools.

This year when it seemed almost impossible to find teachers for rural schools, we were fortunate to hold the services of Mrs. Carl Buswell as teacher of the lower grades and to hire Mrs. Grace Haddad for the upper grades. The instruction is good, the pupils are doing well in their work and there is excellent congeniality among parents, pupils and teachers. Many steps have been made this year to build a good school, but some of the children have not schooled themselves to be quiet while waiting their turn to recite. They are good children, not saucy or bullying, but they have that natural urge, sometimes found among older people, to "play the ball all of the time" or to monopolize conversation.

It would be a help if parents would visit the schools, counsel with the teachers, and encourage their children to have a greater interest in school and in their own future. It might be good to have a parent-teacher club.

The teacher situation is really serious. While wages have been raised they do not meet the increases in taxes, board, etc. There are teachers who will take a school with a single grade of not over twenty pupils, if near the railroad station and bus line, and if they can have excellent board with a heated room in a home near the school where there are no children. This has given the idea that there are teachers without positions, but teachers who really love to teach children, who feel that they are doing their part in these troubled years are hard to find.

It is generally thought that the State pays the expenses of the elementary schools over and above five miles on the equalization valuation of the District. That was the intention of the law, but during the last few years it does not work out just that way. The State pays none of the costs to educate high school pupils. She will not pay for any elementary cost that she has not approved, and the legislature has made the appropriations so small that the approvals have been cut on things really needed in any good school of this day. The State allows only \$5 per school for lights, in many places much less for transportation than the costs, and has no funds to pay for any emergency expenditure by a district such as the transportation of pupils from a new family or opening of a new school in the middle of the school year.

It would be a great help to equalize the cost of education if a law was passed providing up to \$1,500 to each district in the state to maintain a high school or to educate their pupils in the high schools of other districts.

I wish to thank the teachers, members of the School Board, children, and citizens for their patience during this year.

Respectfully submitted,

WALTER L. MASON

**REPORT OF SCHOOL NURSE**

**January, 1943—January, 1944**

As school nurse of Langdon, I submit the following report for the year ending January 31, 1944.

In January the Western Electric Audiometer, loaned by the State Board of Education, was used to check pupils' hearing scientifically. April 29 the annual school dental clinic was held. Twenty-six pupils were treated by Dr. Irving Crandall of Claremont. More than ten pupils were not admitted to the clinic because of lack of time. With nearly a hundred percent of the Langdon children wishing to attend the annual dental clinic, it is clear that two days are needed to do this corrective dentistry.

The results of the school dental clinic held annually may be stated briefly as better health, better attendance, better school work, an aroused interest by the child and the parent in the value of preventive and corrective dentistry.

Here are the defects found at time of health inspection this year.

**Number of pupils in whom  
defects were found and  
reported to parents**

**Corrected**

**Treated**

Defective hearing	1		
Defective vision			1
Defective teeth	10		
Poor posture	3		3
Faulty nutrition	5	2	2
Pediculosis	1	1	
Symptoms of anemia	1		
Enlarged tonsils	2		
Orthopedic defects, flat feet	3		3

I wish to thank the people of Langdon, especially the parents, teachers and Town officials for their support in the school health program.

Respectfully submitted,

ZEPHYRINE L. HASHAM, R. N.
